

Executive Summary

Please provide your GitHub repository link.

GitHub Repository URL: <https://github.com/braithicus/2810ICT-Project-Management-Assignment.git>

You should use your software to prepare an executive summary as outlined below for the five required features.

1. Food Search

Description

the food search feature allows the user to search for a food and have it output foods matching the input word with the ability to display the information

Steps

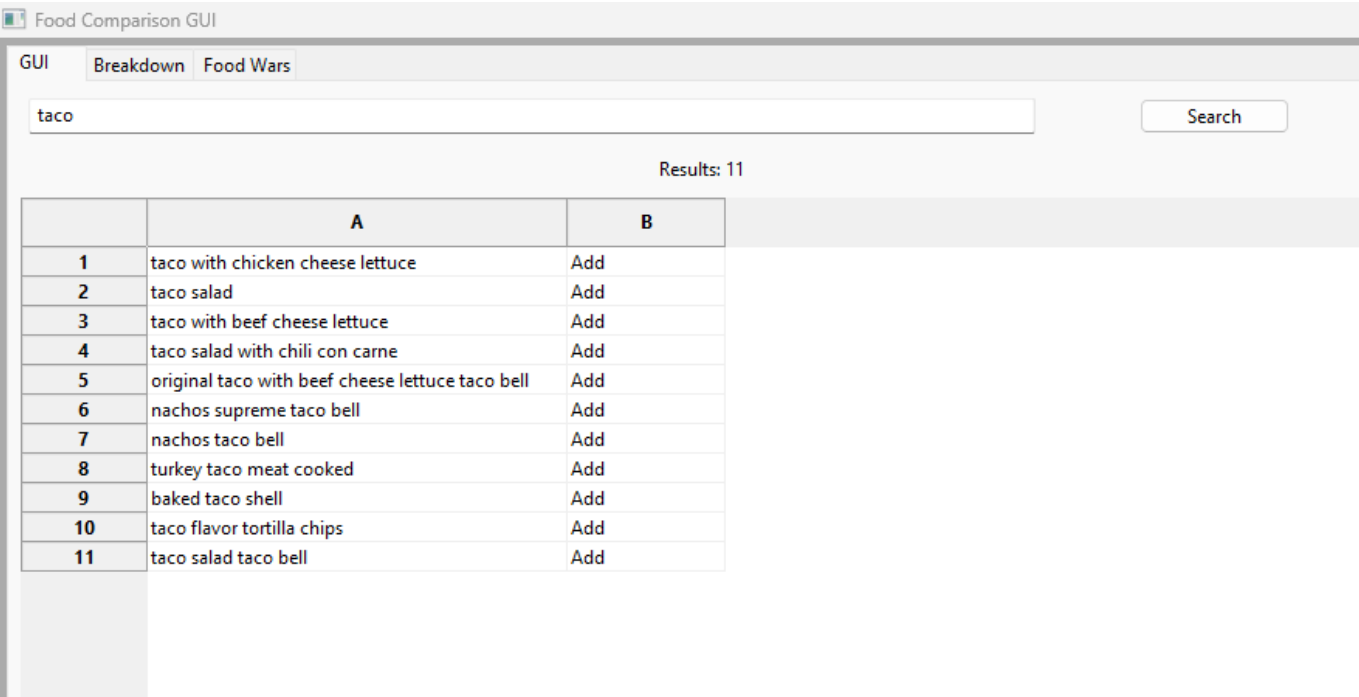

1.

Input the food/keyword you wish to search by
2.

Press the search button
3.

Click the add button to add the food down to the table to display all the nutritional information about the food

2. Nutritional Breakdown

Description

The nutrition breakdown feature allows the user to breakdown the nutritional information for a specific food in the form of pie or bar graphs

Steps

1. Search a food you wish to visually assess its nutritional value in a graph
2. Click add to add the food to the bottom table
3. Select the check box of the food you wish to view in the pie or bar graph
4. Click the button of the graph you want twice for it to load up in an external window
